Our Vision

At REDCYBERFOX LLP, our vision is to be a trusted technology partner for businesses worldwide by delivering excellence in Cybersecurity, Web Development, Digital Marketing, and IT Infrastructure. We aspire to create a secure, connected, and innovative digital ecosystem where organizations can grow with confidence in the ever-evolving digital era.

We believe in building solutions that are not just about technology, but about empowering people and businesses. By combining security, innovation, and reliability, we aim to make technology a driver of sustainable growth and national digital strength.

Our Mission

Our mission is to provide end-to-end IT solutions that help businesses safeguard their data, optimize performance, and accelerate growth. From securing networks and applications, to building scalable digital platforms, to enhancing online visibility, and strengthening IT infrastructure, we ensure our clients are always one step ahead in the digital journey.

As young and passionate entrepreneurs, we are committed to offering reliable, human-centred, and future-ready services.

Guided by our core belief—

“Let’s Make the Nation Secure.”

At REDCYBERFOX LLP, we believe technology should make life simpler, safer, and more productive. We are a young team driven by passion, working hand in hand with businesses to solve real challenges. Together, let’s build a secure, innovative, and future-ready nation.

- Cybersecurity Consulting & Advisory
- Security, Risk Management & Compliance

Web & Software Development

- CRM, ERP, CMS & Custom Software Solutions
- Secure & Scalable E-Commerce Platforms
- Modern, SEO-optimized, and Responsive Websites

Digital Marketing Services

- SEO & Performance Marketing
- Social Media Management & Branding
- Targeted Campaigns to Drive Engagement & Growth

IT Infrastructure & Hardware Services

- Desktop, Laptop & Workstation Setup
- Printers, Peripherals & Network Devices Installation
- Cloud Solutions, Backup & Disaster Recovery
- Hardware Maintenance & Replacement

Projects That Define Us

1. Signoff Semiconductors (www.signoffsemiconductors.com) Corporate Website Maintenance & Enhancements

We provide ongoing maintenance, updates, and improvements for the corporate website of Signoff Semiconductors, an MNC in the semiconductor industry, ensuring smooth performance and a reliable digital presence.

2. CrackTET (www.cracktet.com)

CrackTET is a digital platform for Maharashtra TET exam preparation, offering study materials, subject-wise resources, and realistic practice tests. Built with Next.js and PostgreSQL, it delivers a fast, secure, and user-friendly learning experience for aspiring teachers.

3. Ashraya

Ashraya is a custom NGO management software for Keshav Smurthi Prathisthan, handling student fees, online applications, salaries, donations, and daily operations. Built with Next.js, PostgreSQL, TypeScript, and REST APIs for smooth and efficient management.

4. Keshav Smurthi Prathisthan (keshavsmurthi.vercel.app)

A modern showcase website for Keshav Smurthi Prathisthan, featuring their mission, projects, blog updates, volunteer options, and a secure online donation system—built using Next.js, PostgreSQL, and TypeScript.

5. Swapnasiddhi NGO (www.swapnasiddhi.org)

A site focused on social or community initiatives (based on the installed framework), providing dynamic content and user-friendly engagement features. It serves as an important digital presence for organizational or educational purposes with a clean, accessible design.

6. Sajao Paintings (www.sajao.com)

Sajao is a Pune-based creative art studio and e-commerce brand that offers 100% handmade paintings crafted in-house by trained artists. With a focus on affordable luxury, Sajao bridges the gap between premium gallery art and mass-produced prints, providing customers with authentic artworks complete with framing, shipping, and certificates of authenticity.

Our Collaborations

Solutions That Empower

1. RCF-HIDS Enterprise (In Development)

Hybrid Intrusion Detection System

An intelligent platform protecting businesses with real-time threat detection and automated response.

Key Benefits:

- Smart Threat Detection: Identifies both known and emerging attacks with hybrid technology with Centralized Dashboard
- Automated Response: Quickly reacts to threats, ensuring continuous protection and audit readiness

2.CATS – Cyber Awareness Training Simulator (MVP)

A gamified platform that enhances employee cybersecurity awareness through interactive simulations targeting phishing, ransomware, and social engineering.

Key Benefits:

- Engaging, game-based learning with real-time simulations
- Customizable modules with detailed progress analytics

3.BUS ERP Software

A comprehensive platform for managing school transportation, employees, expenses, and analytics through a simple, intuitive dashboard.

Key Benefits:

- Centralized dashboard for buses, students, employees, and alerts
- Efficient route, school, and employee management with role-based access
- Status Monitoring: Real-time payment dues and system notifications.

4.ClassMS Management System

A modern platform for school and class management, streamlining administration, user management, scheduling, and reporting.

Key Benefits:

- Centralized Student Database & Attendance Tracking
- Role-Based Access Control and Real-Time Notifications
- Subject & Class Scheduling, Payroll, and Salary Management
- Integrated Reports and Audit Logs for better insights

About Us

At REDCYBERFOX LLP, we empower businesses to thrive in the digital age with expert services in Cybersecurity Solutions, Web Development, Digital Marketing, and IT Infrastructure. Our mission is to ensure your business stays secure, innovative, and future-ready—whether it's defending against cyber threats, building powerful web platforms, boosting your brand visibility, or creating reliable IT environments.

We combine expertise, innovation, and dedication to deliver solutions that go beyond fixing problems—we anticipate them. With tailored strategies, modern technology, and a client-first approach, we help organizations secure their data, scale operations, and achieve long-term growth. At REDCYBERFOX LLP, we don't just deliver services—we build digital confidence.

“Where Security Meets Innovation”

Young & Dynamic Team – A passionate group of innovators bringing fresh ideas, energy, and modern solutions.

Holistic IT Partner – From cybersecurity to IT infrastructure, web solutions to digital marketing—we cover every need under one roof

Security First Approach – In everything we build—whether a website, software, or IT setup—security is at the core.

Innovation Meets Practicality – We blend cutting-edge technology with practical, business-friendly solutions.

Nation-Building Vision – More than a company, we're on a mission:

“Let's Make the Nation Secure.”

Founders

Rushikesh Hapse

Co-Founder @ REDCYBERFOX LLP | Cybersecurity Explorer | Hacker Mindset, Defender's Mission

Rushikesh is a visionary cybersecurity professional with expertise in Ethical Hacking, Vulnerability Assessment & Penetration Testing (VAPT), and Intrusion Detection Systems. With a hacker's mindset and a defender's mission, he transforms potential exploits into powerful layers of protection. Beyond his technical brilliance, he is deeply committed to raising awareness about digital safety and ensuring that organizations remain resilient in the face of evolving cyber threats. His passion lies in not just securing systems—but also inspiring responsible and secure use of technology. As he often believes, **“Until we learn to think offensively, our defence will never be truly effective.”**

Rohit Jagtap

Co-Founder @ REDCYBERFOX LLP | Tech Innovator | Builder of Secure & Scalable IT Systems

Rohit is a creative force in IT Infrastructure and Web Development, known for turning complex technology into seamless, user-friendly solutions. With deep expertise in secure system design, he blends innovation with practicality to deliver technology that is reliable, scalable, and business-driven. His vision is to empower organizations with IT solutions that don't just work—but work securely, efficiently, and with long-term impact. A problem-solver at heart, Rohit believes in technology that bridges performance with protection, often saying, **“Technology should not just solve problems—it should solve them securely, efficiently, and for the future.”**

Our Strength, Our People

At REDCYBERFOX LLP, we believe our people are our greatest strength. Each team member brings unique expertise and dedication that drive our vision of delivering secure and innovative solutions.

1. Neel Patil – Software Developer

Neel is a passionate developer skilled in Java, DSA, ReactJS, SQL, NodeJS, ExpressJS, and MongoDB. With a 4★ Rank on HackerRank (Java), he stands out for his problem-solving and coding ability.

2. Dhvani Jain – Marketing Strategies Specialist

Dhwani plays a key role in shaping the company's marketing strategies. Her creative ideas and market insights help REDCYBERFOX connect with the right audience.

3. Gayatri Wakte – Business Development Executive

Gayatri manages client communication and coordination, ensuring smooth collaboration with partners and customers. She contributes to business growth by maintaining strong relationships and opportunities.

4. Tanmay Nachare – Back Office & AI Strategies

Tanmay supports daily operations through data handling, coordination, and AI-based strategies. His work ensures smooth workflows and efficient internal processes.

5. Paras Pal – Software Developer Intern

Paras contributes as a Software Developer Intern, bringing enthusiasm and a willingness to learn. He supports projects while gaining valuable hands-on experience.

Our Unique Edge at REDCYBERFOX LLP

At REDCYBERFOX LLP, we don't just provide services — we create trust, resilience, and future-ready solutions. Our young and dynamic team combines technical expertise, creativity, and innovation to deliver solutions that are secure, efficient, and tailored for India's diverse digital needs.

Why We Stand Out

Cybersecurity Expertise: Skilled in Ethical Hacking, VAPT, and Intrusion Detection Systems, we protect businesses proactively.

Young & Dynamic Team: Passionate professionals bring fresh ideas and modern perspectives to every project.

Integrated IT & Digital Solutions: From cybersecurity to IT infrastructure and digital marketing, we offer unified, reliable solutions.

Local & Inclusive: We develop solutions in local Indian languages, making technology accessible to all.

Innovation & Atmanirbhar Bharat: Proudly Made in India, our flagship products — RCF Hybrid IDS and CATS — support Digital India initiatives.

Client-Centric Approach: Tailored solutions, transparent communication, and dedicated support ensure maximum impact.

Awareness & Education: We empower organizations and individuals to embrace safe and responsible digital practices.

Recognized by DPIIT

“Beyond Business”

First of all, thank you—for taking the time to read about who we are and what we do. REDCYBERFOX LLP isn't just a company, it's a dream that started with a belief: technology should be secure, simple, and meaningful for everyone.

Every project we work on is more than just a service—it's a partnership. We put our heart into understanding your vision, your challenges, and your goals, because your success is our success.

To those who trusted us, supported us, or are simply curious about our journey—you are already a part of our story. And together, we can write the next chapter of building a safer, stronger, and smarter digital tomorrow.

Let's not just work on projects.

Let's build trust.

Let's build the future.
